The correctional facility has issued regulations to be observed by all Contractors working on the Project in order to minimize disruption to prison operations, maintain security and to facilitate the construction process. While working inside the prison facilities on a regular or occasional basis, it must be clearly understood that prison security requirements will at all times take precedence over construction operations. The Contractor shall comply with all such regulations and consider the regulations when preparing his/her bid.

WORKING AT A DEPARTMENT OF CORRECTION FACILITY

- a. In order for the Department of Correction (DOC) to ensure security on the job site, the Prime Contractor shall submit a list of all proposed workers who will be working on the site, to the DPC including their name, social security number, age, sex, race and date of birth. The list shall be used by the Department of Correction for a background check.
- b. Workmen will not be permitted on the campus without approval.
- c. All tools, equipment, supplies, etc., shall be removed from the compound building daily.
- d. A list of tools must be supplied with each truck. Inventory shall be taken by the contractor at the beginning and end of each workday. - f. Proper construction clothing is required. Short pants are not permitted.
- g. Contractors shall include, in their bid, a sufficient amount of time to enter and depart the facility in a given day. As an example of past projects at a Department of Correction site, it takes between one half to one hour to enter or leave the facility.

Definitions

Ownership

The minority or woman ownership interest in the firm must be real, substantial and continuing and shall go beyond the pro forma ownership of the business as reflected in its ownership documents. The minority and women owners shall enjoy the customary incidents of ownership and shall share in the risks and profits commensurate with their ownership interest as demonstrated both by an examination of the substance and form of arrangements.

Control

Control will be exemplified by possession of the requisite knowledge and expertise to run the particular business. Control includes the authority to determine the direction of a business, including but not limited to capital investments and all other financial transactions; property acquisitions; day-to-day decisions; contract negotiations; legal matters; selection and hiring of officers, directors, and employees; operating responsibility; cost-control; income and dividend matters; and the rights of other shareholders or partners.

The minority and/or women owners must hold the highest officer position in their companies, example chief executive officer or president.

The minority and/or women must demonstrate that they possess the experience, expertise and knowledge to operate their particular types of business.

Expertise limited to office management, administration, or bookkeeping functions unrelated to the principal business activities of the company is insufficient to demonstrate control. Women and/or minority owners must also verify that they hold any licenses or certification required by the type of business in which they are engaged.

Definitions

Minority Business Enterprise (MBE) - A for profit business in which at least 51% of the beneficial ownership interest and control are held by a minority or minorities. In the case of a corporation, minorities must hold at least 51% of voting interest.

Minority & Women Business Enterprise (MWBE) - A for-profit business in which at least 51% of beneficial interest and control is held by minority women or by an equal combination of minorities and women. In the case of a corporation, women and minorities must also hold at least 51% of voting interest.

Women Business Enterprise (WBE) - A for-profit business in which at least 51% of beneficial interest and control is held by women. In the case of a corporation, women must also hold at least 51% of the voting interest.

Useful Business Function

A useful business function is one, which results in the provision of materials, supplies, equipment or services to consumers in the State. A business acting as a conduit to transfer funds to a non-minority business does not constitute a useful business function unless doing so is a normal industry practice.

Benefits of Certification

Current certified minority and/or women owned firms are eligible to be listed in the State of Delaware Directory of Minority and Women Owned Businesses which is circulated to all state and local government agencies.

Recertification
